Survey of Equine Research in 2005

Betsy Greene, Ph.D.
Extension Equine Specialist
Overview

- My Background
- Topics of interest to race industry in the last year
- List by location and title
- List by Topics
- Politics
Morgan Growth Rates: Using the Past to Predict the Future
THE EFFECT OF AGE OF DAM ON BIRTH WEIGHT AND GROWTH RATE OF THOROUGHBRED FOALS

J.G. Willard, J.L. Williams, J.C. Willard, J.R. Knapp and E.A. Greene
(2005) Inheritance of recurrent exertional rhabdomyolysis in Thoroughbreds. JAVMA

(2005) Evaluation of horseshoe characteristics and high-speed exercise history as possible risk factors for catastrophic musculoskeletal injury in Thoroughbred racehorses. AJVR

(2005) Up-regulation of site-specific remodeling without accumulation of microcracking and loss of osteocytes. Bone

(2005) Role of endochondral ossification of articular cartilage and functional adaptation of the subchondral plate in the development of fatigue microcracking of joints. Bone

(2005) Osteochondrosis and copper: Histology of articular cartilage from foals out of copper supplemented and non-supplemented dams. Vet J.

(2005) Effects of treatment with omeprazole or ranitidine on gastric squamous ulceration in racing Thoroughbreds. JAVMA

Hair analysis as a novel investigative tool for the detection of historical drug use/misuse in the horse: a pilot study. Equine Vet J.
(2005) Study of cartilage and bone layers of the bearing surface of the equine metacarpophalangeal joint relative to different timescales of maturation. Equine Vet J.
